

# Herschel Astronomical Abbreviations

---

## Brightness Scale

eF - Excessively faint  
vF - Very faint  
F - Faint  
cF - Considerably faint  
pF - Pretty faint  
pB - Pretty bright  
cB - Considerably bright  
B - Bright  
vB - Very bright  
eB - Extremely bright

## Size Scale

eS - Excessively small  
vS - Very small  
S - Small  
cS - Considerably small  
pS - Pretty small  
pL - Pretty large  
cL - Considerably large  
L - Large  
vL - Very large  
eL - Excessively large

## Form Scale

R - Round  
vlE - Very little extended  
E - Elliptic or oval  
cE - Considerably extended  
pmE - Pretty much extended  
mE - Much extended  
vmE - Very much extended  
eE - Extremely extended
